I have these 2 sheets: Sheet1 : Date Sheet2: Date What I need is that if I find a date in Sheet1 or Sheet2, I want to go to Sheet3. Here's my code: Sub Button1\_Click() Dim cell As Range Set cell = Sheet1.Range("B:B") For Each cell In Sheets("Sheet2").Range("B:B") If cell.Value = Date Then MsgBox "Date Found in " & Sheets("Sheet2").Name & vbNewLine & "Hit Enter to go to " & Sheets("Sheet3").Name Sheet3.Activate End If Next End Sub What I got is that the code always ends up on the first sheet. What I'm trying to do is to find a date, if it exists in the first sheet, go to the third sheet. Thanks a lot! A: You need to put your Sheets("Sheet3").Activate inside the if statement.
