667 DESCRIPTION Each of the CLINs specified in this Contract represents a single Contract Line Item Number (CLIN) item defined in the Contract, identified by the CLIN number provided below. For the purposes of this Contract, each CLINs or CLIN-related item is defined as a single identified number and shall be referred to in this Contract as a Contract Line Item Number (CLIN), i.e. Contract CLIN:... The number of (a) work hours (hours) required for the Work, including any Work provided by the Contractor and accepted in the same month, (b) Work days, (c) Labor and material costs for work, material, labor, and equipment incurred by the Contractor in the performance of this Contract (including all costs incurred by the Contractor by subcontractors, consultants, and others as necessary to the performance of the Work under this Contract), (d) cost or other item(s) or measures (e.g., internal rate of return (IRR)) used to calculate any fee for this Contract, and (f) cost or other item(s) or measures (e.g., IRR) used to determine the amounts payable to the Contractor under this Contract, are as follows, based on the type of CLIN: 7.2010601.b. Description and Purpose of Mitigation (mitigation). 7.210601.b. Purpose of Mitigation The purpose of mitigation is to reduce or decrease a significant impact from the activity or project to be mitigated, as documented and agreed upon by both parties in an application for Federal authorization or a regulatory permit. 1. Mitigation Potential The potential for mitigation of the significant impact identified by the applicant (or the applicant if the applicant was not the applicant listed on the original application) in its application to mitigate the significant impact of the activity or project to be mitigated is documented in the application and associated supporting documentation. The documentation shall include but is not limited to descriptions of: 7.2040.f.. The potential for mitigation is determined through the application of the County's Mitigation Policy, the Federal Mitigation Policy, and other County. The SCA is determined by the Mitigation POC (see 7.8.e. below). Note that the SCA is.
