
Railworks 4 HRQ Siemens Taurus ES64U2 Mod

DIY HRQ Siemens Taurus ES64U2 repaint. On November 17th 2019 @ 12:01 AM EST someone on irc.serverheaven.com. Aug 17, 2019 With this one I also added SRX80 which is the passenger car that I own and a steam loco as well.. CSX AC4400 Passenger Car (Siemens) PC Mods for Train Simulator with the New HRQ Diesel. PC Hardware and PC Graphics Comparison for Train Simulator (TS2, TS4, TSS.. TS 2014 HD: HRQ OBB Railjet Siemens ES64U2 Class 1116 Taurus With 14 Car 1C. Category:1972 births Category:American video game designers Category:Living peopleQ: Reading from text file works when writing text in terminal but not when I try to use in an input field of a program I'm trying to read a text file from the web and use it in a calculator program I'm working on. I've checked many posts but can't find the answer I'm looking for. Here's a snippet of the code I'm working with: def get_cash_flow_data(): cash_finance = open('cash_finance.txt', 'r') cash = cash_finance.read() cash_finance.close() return cash def get_forecast_cash_flow(): forecast_cash_finance = open('cash_finance.txt', 'r') forecast = forecast_cash_finance.read() forecast_cash_finance.close() return forecast def cash_flow_compare(): cash_finance = get_cash_flow_data() forecast = get_forecast_cash_flow() print("You have: " + str(cash_finance) + " this month") print("You can expect: " + str(forecast) + " to occur") I'm currently running python 3.4.2 and am using the PyCharm IDE. The thing is, whenever I use cash_finance to print a message it prints the message just fine. But when I try to use that in
