Field of the Invention The present invention relates to a printing apparatus having a printing unit having an internal gear of which surface is formed with a plurality of teeth. 2. Description of the Related Art A conventional rotary printing apparatus is constructed such that when a number of sheets of paper are stacked on a paper-feeding tray (sheet-feeding tray), the sheets of paper are fed one by one, then printed and discharged by a printing unit. However, in case of duplex printing, or in case of simultaneous printing, not only the time required for performing the paper-feeding operation is needed, but also a feeding direction of a sheet of paper is reversed in the duplex printing or the simultaneous printing. Thus, a rotary shaft has to be rotated by 180.degree. to reverse the direction of the sheet of paper. In view of the above-mentioned problem, there has been proposed a structure in which teeth formed on the surface of a gear which is coupled to the rotary shaft are engaged with a pinion which is provided on

Salam Namaste (2005) Full Hindi Movie Watch Online Description: A quirky look at life and relationships that treats the tale with some squint ... The film is based on real events. A film about love. A movie about a girl and her father. A girl, her father, and her father's girlfriend. About how they lived. How they searched for love. How they found it. How they tried to hold on to it and how they lost it... The film has everything to immerse the viewer in its atmosphere and forget about everything in the world. It is filled with beauty and sincerity, love and joy, miracles and magic. And all this to show us that there is still love in life. And that there is happiness. fffad4f19a
