Sumita Arora XI IP Flow Of Control Exercise with a solution.sumita arora Practice of computer science class 11 pdf free download.CBSE XI.Computer science with class C. Theory and practice problem solving. C is one of the two languages in which all the programs written at the school are written. But unlike other programs written in C, most programs written in C have a fixed size. In order to write a program in C, you need only two source files - main.c and unit1.c. The main.c file defines what the program will look like. The file unit1.c contains all the functions that are used in the program. main.c file.
