Chromium(III) sulfate hexahydrate Chromium(III) sulfate hexahydrate is a white solid that is soluble in water. It is found in nature in trace amounts, usually bound to some other chemical compound such as carbonates, nitrates, or phosphate. Unlike the other compounds of chromium in dry air, it undergoes a facile oxidation in acidic

solution. It was isolated in 1835 by Gustav Rose and in 1841 by John Blyth. It was named by Du Bois in 1848. It is prepared by dissolving chromium sulfate in hot water and letting it cool. It is a stable intermediate on the path

Category:CationsQ: Getting two black bars while running Xamarin

Forms I am developing a Xamarin.Forms App on a Windows10 Mobile device. I want to separate the content from the navigation bar, since navigationbar size seems to be limited to 300 pixels high. So I am trying to get the navigation bar into the background, while the content (ContactsListPage) is being displayed as normal. In the MainPage.xaml I have this code:
