What's New In Topaz Lens Effects?

The Topaz Lens Effects program is a suite of photo-realistic effects that make you add vintage elements to photos made with some equipment. With the Topaz Lens Effects, there are effects such as perspective correction, lens flare effects, bokeh, diffusion, dreamy atmospheres, blurs and a few others that you can use to make photos look like they were taken with cameras. Bokeh is the magical distortion effect that makes distant objects (or parts of the background) look sharp. With Topaz Lens Effects, you can add background objects such as insects, foliage or even toys to your photos with a few simple clicks in order to make them look like they belong there. The Topaz Lens Effects also includes two simple effects: lens flares and dreamy atmospheres. If you have ever played with a camera and experimented with lenses, you might have come across those effects. Imagine being able to add an immediate tone to your photos. Using Topaz Lens Effects, the moment you work with it, you can add those classic vintage effects to your photos to make them look like they were made in a photo studio.
