In this plot, we have arranged the curves in a pattern such as 0-100 so that each pair of data stays together. ★ NsSoftware.com ❶ No comments Hi everyone! After a long time i have decided to add this fun tool to my website. Hope you enjoy it. See the Credits for all the people that helped.Q: Crystal Report Chart not displaying in IIS 6 and 7 i have

used this code in a website to generate a report to show the sales of a company. but the chart that i included to show the sales of a certain period is showing in the report. but it is not displaying in the browser. however, while i am working on a system other than this one the same report is working perfectly fine. my system is running in a windows 7 server 64 bit version, i have not given any option to change the settings, i think there is something very wrong with the permissions or the server settings. i am using the code in a aspx page and have used it before and it worked perfectly fine. but this time its not working. please help me or suggest me some solution for this. i have also used iis 6 and iis 7 on this server, the chart is not being displayed in IIS 6 also. but it is working fine in IIS 7. can anyone suggest me whats going wrong? please help. i am using crystalreportviewer control. i am calling the code in a button click event. protected void Button1_Click(object sender, EventArgs e) {
