**Keys Per Second Free Download**

Quickly change from one keyboard layout to another. Change keyboard layout for apps.

---

Choose from supported layouts or create your own custom layout Use any keyboard for free.

What isKEYMACRO? Keyboard macros are programs that allow you to define and execute custom actions when specific keys or sequences of keys are pressed. The program you are about to download can automate some or all of the following actions: \* Turn on/off the computer \* Open programs or documents \* Turn on/off the main monitor \* Change the volume of your audio device \* Control media players and other audio or video applications A decent tool for controlling audio output volume, and useful as a keyboard shortcut manager Keyboard Booster Description: A keyboard layout utility that lets you change your keyboard layout. A full-featured keyboard layout switching utility. A tool that can be used to setup a completely custom keyboard layout. What is KeyboardBooster? This is a complete keyboard layout switching utility. KeyboardBooster is an intuitive tool that lets you easily change your keyboard layout. With

---

KeyboardBooster, you can swap your keyboard layout without switching your virtual desktops. KeyboardBooster lets you easily swap between many different keyboard layouts.

KeyboardBooster can be used to setup a completely custom keyboard layout. This tool allows you to easily change your layout, so that you can quickly switch to a different layout with one keystroke, from the very commonly used ‘Caps Lock’ layout to the relatively unknown ‘FIFO’ layout. Install and Activate Just download and install the utility and activate it from the launcher. You can even go to the launcher and search for ‘KeyboardBooster’, which will list all the keyboard layouts that are compatible with this utility. What are supported layouts? To see what layouts are compatible with this utility, simply go to the tool’s settings, and click on ‘Settings’. You can view a list of all the different layouts that are compatible with this tool, or just see which layouts have been added to the app recently. Layout features If you are an

---

administrator and have access to the 'KeyboardBooster Settings' window, you will be able to tweak some of the settings, such as the minimum and maximum keystrokes required to switch to a specific layout, and the minimum and maximum values for the shortcut keys. You
