Powerful Player Decisions Powerful Player Decisions returns to FIFA, offering players a number of new decisions to make. The “Settle the Score” Decision in particular, which was first introduced in FIFA 19, returns, while other, unseen decisions have been created to add to the unpredictability of the game. Players will now have to switch between “Hand of God” and “Crimson Card,” enabling them to change their actions on the pitch based on the situation. More Player Vignettes An all-new “Player vignette”

The Player vignettes give players the chance to get to know each other throughout the match and develop their relationships with key players, further deepening the experience of the game. “Motivating Player Characters” FIFA uses several gameplay systems to make players more interesting and believable in the game. This includes “Motivating Player Characters” and “Player Personality,” helping players to feel more human and realistic. In this year’s game, player body and facial animations are also better, making the person you’re playing as more realistic. Referee Pitch Display For the first time, FUT is getting an in-game pitch display to keep the action flowing throughout the game. Players and the referee will be able to tell how the ball is rolling on the pitch, or if the ball is about to go out of play. "By using sports motion capture we can react to footwork quicker and more accurately and enable faster footwork than before.
